Über die Messe

The world's biggest clothing machinery Fair! Clothing Machinery Fair, the prime trade show of the industry showcases manufacturing potential and latest technologies of leading machinery manufacturers. The fair is making great contribution to the clothing machinery companies to increase their competitive strength, reach target markets and create new business contacts with potential customers. The results of the last edition have once again proved that the fair has become a well-known global event with high level of international awareness. The Clothing Machinery Fair, keeps its aim higher, same as it's done in previous years.
