#### **Über die Messe**

MEDEXPO is the largest International Trade Exhibition on Medical products and equipment held annually in Tanzania. The exhibition attracts exhibitors from more than 20 countries and visitors from all over East & Central Africa, thus giving exhibitors an excellent opportunity to explore several countries at one time. Over the past few years, Tanzania has emerged as a major regional trade centre. This is mainly due to the very friendly and business-like atmosphere it offers to foreign investors and products. Duties are considerably low and re-exports to neighbouring countries are either very low or exempted. Come, be a part of progress in Africa!
