Über die Messe

Energy Lebanon has evolved into one of the largest and most specialized exhibitions in the region dedicated solely to energy and clearly partitioned to cover all aspects of the sector, including Electricity, Water Technology, Lighting, and HVAC. Energy Lebanon addresses all the energy needs of the construction and development sectors, including large industrial and commercial projects, various infrastructure projects, building and housing, thanks to a comprehensive range of products and services such as: electricity production and distribution, modern lighting products and technologies, ventilation, cooling and air-conditioning and many more. Energy Lebanon is held alongside Project Lebanon, the International Exhibition for Construction Materials and Equipment for Lebanon and the Middle East.
