Über die Messe

DES Show - Technology has changed the business world forever. The Digital Enterprise Show is aimed at CEOs, CIOs, CMOs and HR departments, and together with the most innovative cutting-edge technology companies, they are invited to meet the most innovative products and solutions as well as the skills required to help European SMEs and large corporations join the digital transformation. This is a global platform that allows attendees to learn, experience, meet, compare and buy the most advanced solutions. It is a must-attend event for any business leaders who are ready to face up to the challenge of digitally transforming their businesses and becoming part of the new digital economy, because otherwise they will find themselves isolated from the market and left behind.
