#### Über die Messe

GTS offers an excellent opportunity for everyone to access the South African and Continental markets. It also highlights potential global markets for local buyers. As a multi-sector exhibition, thousands of products across various import and export categories will be on show at GTS. GTS comprises four co-located shows: Tools & Build Show (TBS), Household & Appliances Show (HAS), Smart Electronics & Security Show (SES), and Food & Beverages Show (FBS). It is one of the largest B2B events in South Africa. Informative and well-designed workshops will also help you to find reputable suppliers and build your business networks.
