About the expo

photokina takes the next step and will take place annually as of 2022. It will in future thus optimally reflect the fast-paced nature and the ever briefer innovation cycles of an increasingly digitalised industry. As of 2022 the trade fair will also have a new date in May. In addition to innovations from the core areas of the imaging workflow, the entire range of products, applications and services of relevance for imaging shall in future be presented in Cologne.
