Asia

---

#### About the expo

Asia's Leading Exhibition for Automotive Lightweight Technologies! Lightweight technologies play a significant role in improvement of fuel efficiency without giving up enhancing safety and comfort. "Automotive Lightweight Technology Expo" is a unique trade show featuring all kinds of Components/Materials and Molding/Processing Technologies for automotive weight reduction. Automotive OEMs and Tier 1 suppliers visit the exhibition to find the latest technologies. This is the must-attend show for all professionals engaged in automobile development.

#### More Facts

##### Show type

International trade fair

---

##### First year of expo

2011

---

##### Branches

Automobiles, Automotive Parts

---

##### Products / Sectors

All kinds of automotive weight reduction technologies (high-tensile steel sheets, aluminum alloys, magnesium alloys, carbon fiber reinforced plastics, resins, molding / processing technologies, processing equipment, structural analysis tools / simulation technologies)

---

##### Open to

Trade visitors

---

##### Frequency

Annual, within AUTOMOTIVE WORLD

---
