Holešovice,  
17005 Praha 7,  
Czech Republic,  
Europe

---

## About the expo

Reconstruction of historical files and objects, their financing and current utilization, and also our heritage and the promotion of crafts - these are the topics of the exhibition. The regeneration of cultural heritage is, however, a multi-disciplinary theme making it a very broad field. It does not concern just the area of caring for historical buildings/monuments, the rescue and conservation of historical heritage and project planning and construction. It also involves restoration, arts and crafts, the protection and securing of buildings and their parts, equipment and technical infrastructure, fire prevention and protection of buildings and sites, and the wide-ranging issue of the current utilisation of monuments and monument groups, their place in modern environments and the landscape, and many other themes. The interest of non-profit organisations etc. should also not be ignored.

## More Facts
