Europe

About the expo

The presentation demonstrates shoe and accessory brands from Europe (Austria, UK, Germany, Italy, Spain, Israel, Portugal, France, Finland, Switzerland), as well as from Brazil and the U.S.A. It is very beneficial for both exhibitors and visitors. The retailers are provided with an excellent product range matching the needs of their target audience. The growing competition forces the manufacturers to be more attentive to their own products and services and to take into account what brands they have to share shelves with in the shops at the same time.
