About the expo

The exhibition at the world's largest natural gas conference will occupy 40,000 sqm of dedicated exhibition space and attract more than 350 exhibitors from over 40 countries. Exhibitors cover the entire spectrum - Upstream, Midstream and Downstream - ranging from producers, through EPCs and contractors to specialist products and services. Exhibitors can look forward to meeting upwards of 10,000 delegates and trade visitors from nearly 100 countries. For US based companies it provides a once in a generation opportunity to take advantage of the World Gas Conference coming to the USA, to showcase your products and services to the global audience who will attend.
