H&D Digitaldruck GmbH

H&D Digitaldruck GmbH was founded in 1995 and quickly developed into a reliable partner for digital large format printing. Meanwhile we are one of the market leaders in digital large format printing. Our success story is guaranteed not only by our great passion for digital printing but also by our principles.

Reliability. Adherence to delivery dates. Quality

This has enabled our team to develop continuously - into your competent printing partner with over 60 employees in an office and production area of around 5,000 m². With 14 large-format printing systems and our own ready-made clothing department. We offer you all services from consulting and planning to assembly.

Our products

UV web printing with white printing, sublimation printing, direct plate printing with haptic coating options, partial matt or gloss varnishing and with white printing, paper printing and foil printing. In-house packaging for different systems, with and without substructure such as LED light boxes, we supply everything from a single source.

State-of-the-art machinery

At the heart of our machine park are 14 different, large-format printing systems with back-up systems and our own ready-made clothing department to ensure that everything runs smoothly. Three printing systems with a seamless printing width of 5 m as well as two sublimation printing machines with a printing width of up to 3.2 m and two direct plate printing machines for plate formats of up to 4 m x 2.5 m. In addition, printing systems for latex inks and other printing systems with a printing width of up to 1.5 m are also available.

Precisely fitting cutting and finishing

Computer-controlled cutting and milling systems enable a precise and effective

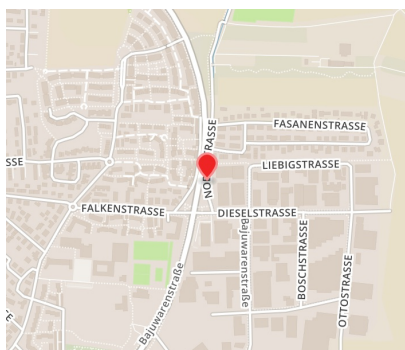

further processing of your prints. Standard assemblies and individual adaptations are carried out carefully by skilled tailors.

Special productions - also in large quantities

We can manufacture LED light boxes manufactured in-house in all depths and sizes according to your wishes. You will receive foil lettering and elaborate 3D conversions from our advertising technology. As a standard we have suitable suspension and mounting devices in stock. For your projects we offer simple piping rails and rubber lip frames as well as complex special conversions. And if you wish, we can provide you with professional assembly teams throughout Europe. ****Indoor or Outdoor**** We have the right solution for every occasion. Weatherproof and UV-resistant with the right substructure and optimum fastening technology. We take over the project planning, assembly and disassembly for you. We are happy to support you in putting your brand impressively in the limelight. Everything is possible!
